

## TRACTOR RESTORATION COMPETITION

Dear Delo TRC Participants,

The COVID-19 outbreak across the globe is truly an unprecedented situation that has affected all our lives. Our thoughts are with those directly affected by the virus outbreak, as well as healthcare and essential workers.

Many of you may have already put significant work and investment into your projects for the 2020 competition. We understand you may be facing challenges making progress due to the virus including:

- Closing of schools or buildings limiting access to the tractor and/or resources needed for the restoration
- Closing of vendors resulting in difficulty getting parts or outsource work performed
- Social distancing preventing teams from working together, and/or teachers/advisors/mentors being able to properly instruct and supervise work

Safety has always been Chevron's top priority for all TRC participants, advisors, and their families, so we want to encourage everyone to concentrate on staying healthy and safe during this time. In light of the situation, we want to work with entrants to ensure as many as possible are still able to compete this year and have their hard work recognized. If you are experiencing special circumstances that are affecting your ability to complete your 2020 Delo TRC entry, please contact a TRC Coordinator at [TRC@deckelmoneypenny.com](mailto:TRC@deckelmoneypenny.com) or you may text or call (502) 513-7001.

As this situation continues to evolve, we will post updates on the [DeloTractorRestoration.com](http://DeloTractorRestoration.com) website as well as social media if there are any changes in the competition. In the meantime, stay healthy and safe.

Best wishes,  
Dan Holdmeyer
