

RELIABILITY-BASED LUBRICATION

CONSTRUCTION

Reliability-based Lubrication (RbL™) isn't just about lubricants. It's a powerful combination of industry knowledge, targeted products and customised services for your construction business. We work with you to establish a lubrication programme that can help run your equipment reliably, your work sites efficiently and your business profitably.

With one of the largest distribution networks in the industry, Chevron has the infrastructure to deliver the lubrication products and services you need whenever and wherever you need them.

From our global operational reach to the depth of our experienced personnel, we stand for one thing above all else: **RELIABILITY**.

How Reliability-based Lubrication Works for You

Chevron combines industry knowledge with technology to provide premium lubricants like our Texaco Ursa® family of products – which can help provide extended service protection, maximise engine durability and minimise operating costs.

Extended Service Protection

Durability

Supplier Performance

A Chevron company brand

Products

Always confirm that the product selected is consistent with the original equipment manufacturer's recommendation for the equipment operating conditions and customer's maintenance practices.

Engine Oils	Grades
Ursa® Ultra XLE Ultra high performance ISOSYN® fuel efficient extended drain diesel engine lubricant for use in the latest low emission vehicles.	SAE 5W-30
Ursa Ultra X High performance ISOSYN synthetic blend extended drain, fuel efficient diesel engine lubricant.	SAE 10W-30
Ursa Ultra X High performance ISOSYN synthetic blend extended drain diesel engine lubricant.	SAE 10W-40
Ursa Ultra LE High performance ISOSYN synthetic blend fuel efficient, low emissions heavy duty diesel engine lubricant.	SAE 10W-30
Ursa Ultra LE High performance ISOSYN technology low emissions heavy duty diesel engine lubricant.	SAE 15W-40
Ursa Premium TDX (E4) High performance part-synthetic extended drain diesel engine lubricant.	SAE 10W-40
Ursa Premium TD Proven performance heavy duty diesel engine lubricant.	SAE 10W-40, 15W-40, 20W-50
Ursa HD Reliable performance heavy duty part synthetic diesel engine lubricant.	SAE 10W-40
Ursa HD Effective performance multigrade heavy duty diesel engine lubricant.	SAE 15W-40, 20W-50
Ursa HD Monograde Effective performance monograde heavy duty diesel engine lubricant.	SAE 10W, 30, 40

Transmission Fluids	Grades
Multigear MTF HD Ultra high performance heavy duty synthetic automotive gear lubricant.	
Multigear MTF High performance heavy duty synthetic manual transmission fluid.	SAE 75W-80
Textran® TDH Premium High performance universal tractor transmission oil (UTTO).	
Textran HD Proven performance heavy duty transmission and drivetrain fluid.	SAE 10W, 30, 50
Texamatic® 7045E Proven performance automatic transmission fluid.	
Textran 9330 Effective performance automatic transmission fluid.	
Automotive Gear Lubricants	Grades
Multigear® S High performance synthetic total driveline lubricant.	SAE 75W-90
Multigear Proven performance total drivetrain lubricant.	SAE 80W-90
Multigear 75W-90 R High performance part synthetic total driveline lubricant.	SAE 75W-90
Geartex® EP-A Effective performance automotive gear lubricant suitable for API GL-4 applications.	SAE 80W
Geartex EP-B Effective performance automotive gear lubricant suitable for API GL-5 applications.	SAE 85W-90
Geartex EP-C Effective performance automotive gear lubricant suitable for API GL-5 applications.	SAE 85W-140
Geartex LS Effective performance automotive gear lubricant formulated for use in limited slip differentials.	SAE 85W-90

Greases	Grades
Starplex® EP High performance long-service multi-purpose lead-free grease.	NLGI 2
Multifak® EP Effective performance extreme pressure multipurpose automotive and industrial grease.	NLGI 2
Multifak 264 EP Effective performance extreme pressure lithium grease.	NLGI 00/000
Molytex® EP Proven performance extreme pressure multipurpose lithium grease, contains MoS ₂ .	NLGI 2
Texclad® Proven performance calcium grease.	NLGI 2
Ulti-Plex® Synthetic Grease EP High performance high temperature synthetic grease.	NLGI Service Category LB

Coolants	Grades
Havoline® XLC High performance extended life antifreeze coolant.	Concentrate, Premixed 40/60, Premixed 50/50

Hydraulic Oils	Grades
Clarity® Synthetic Hydraulic Oil AW Ultra high performance synthetic ashless, multigrade hydraulic fluid.	ISO VG 32, 46, 68
Rando® HDZ High performance multigrade heavy duty hydraulic fluid.	ISO VG 15, 32, 46, 68
Rando HD Effective performance hydraulic fluid.	ISO VG 32, 46, 68
Hydra® Ultra high performance biodegradable synthetic hydraulic fluid.	ISO VG 46

Specialty Fluids	Grades
Brake Fluid DOT 4 Effective performance automotive brake fluid.	
Techron® D Concentrate Ultra high performance diesel fuel system cleaner.

Gear Up with the Reliability-based Lubrication (RbL™) Team

The RbL Programme Process

1. Understand Your Business Drivers

Before we can recommend a product and service programme for you, we need to understand the obstacles you currently face. How can we help you deliver on your business plan?

- Increase Equipment Uptime
- Increase Component Service Life
- Improve Maintenance Labour Availability
- Learn from Best Practices
- Improve Fuel Efficiencies
- Minimise Fluid and Filter Usage
- Improve Supplier Performance

2. Develop the Right RbL Programme for Your Identified Needs

Let a Chevron Lubrication Specialist conduct our Best-in-Class Assessment to identify specific strengths and gaps in your current lubrication programme and develop a plan to help you achieve your business goals. The five areas of focus are:

- Product Selection
- Product Integrity
- Optimised Lubrication Intervals
- Lubrication Programme Management
- Inventory Management and Vendor Performance

The Best-in-Class Assessment can be conducted on a routine basis to track your progress, identify new areas of opportunity and help move your organisation toward best-in-class performance.

3. Document the Opportunity

After completing the Best-in-Class Assessment, we use our RbL calculators to quantify the benefit your company could achieve by implementing our RbL Programme.

We will share the transition project plan and agree on a scorecard to track results and identify appropriate resources and stakeholders.

4. Execute the Plan

Our Chevron Lubrication Specialists can be there to provide the expert knowledge to help your team 'gear up' for your new RbL Programme. We will help ensure the recommended products, services and equipment are properly implemented on time and in full.

5. Track and Document the Results

On an agreed-upon regular schedule, we will review the RbL Programme scorecard to track and document the collective results. We can help identify additional action items or new opportunities to target.

Chevron's RbL Programme can help you increase equipment uptime and component service life.
