

Grease Program

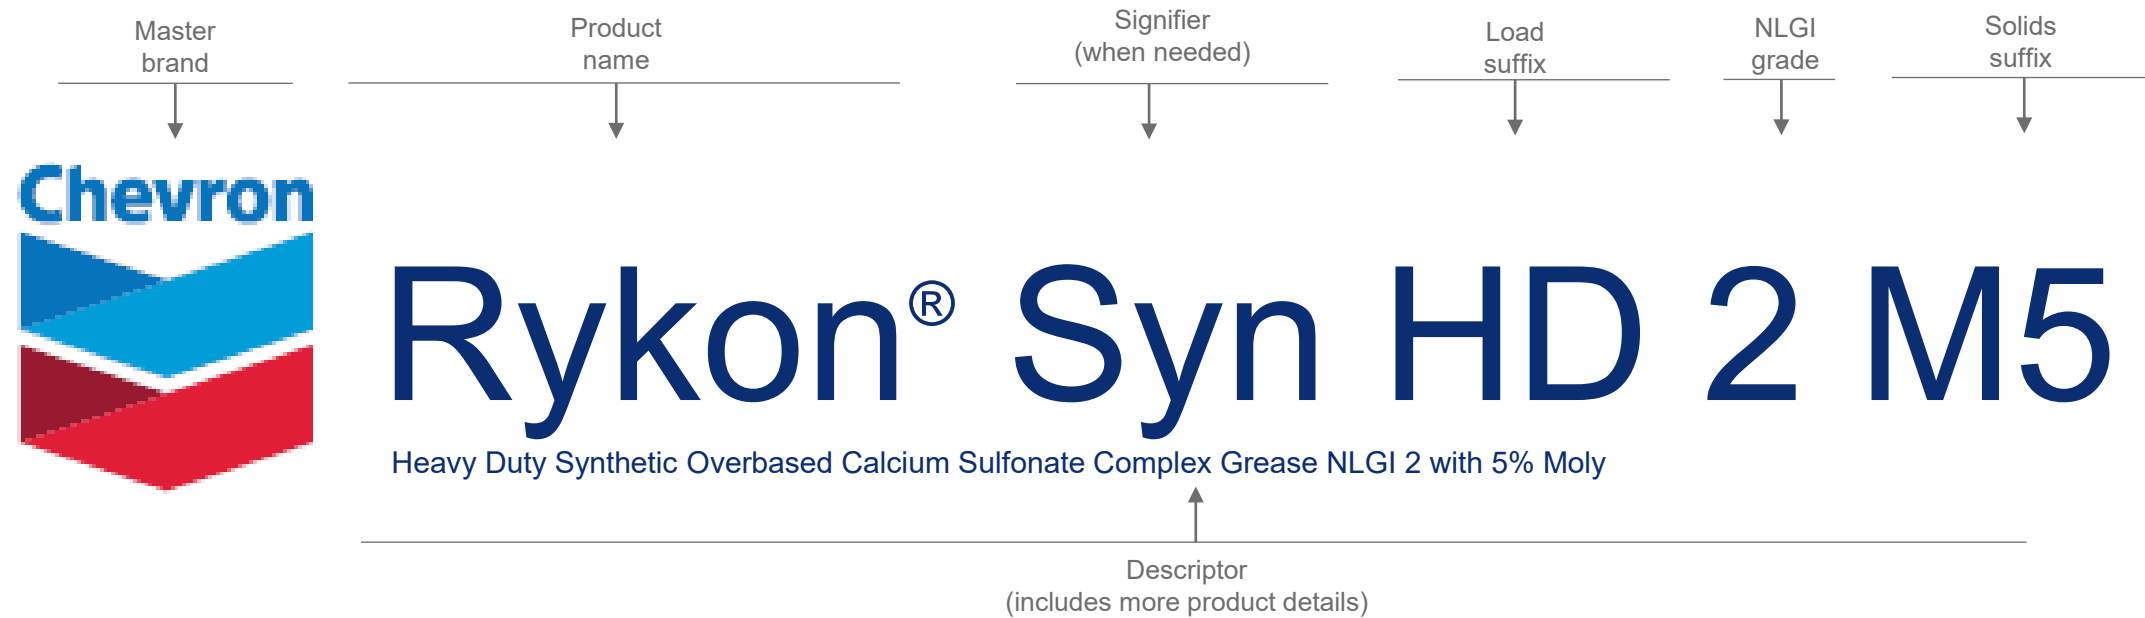

Grease Product Naming Decoded

Formula for product naming

Master brand + Product name + Signifier + Load suffix + NLGI grade + Solids suffix
when needed
(i.e., Synthetic)

Product name example

Examples of written product names

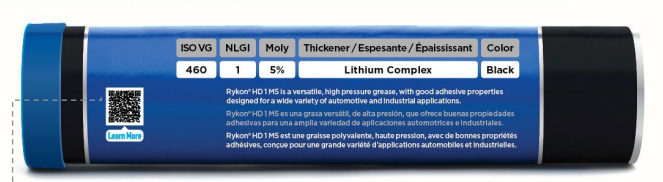

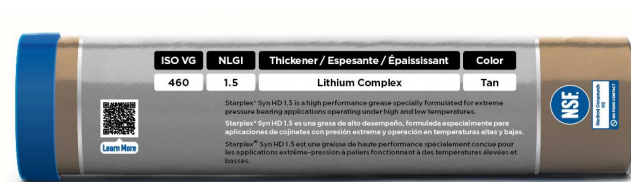

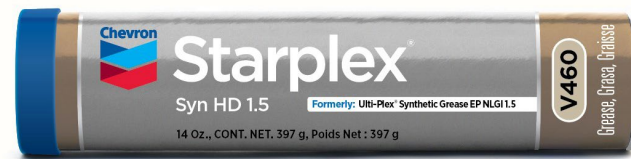

Chevron Rykon[®] Syn HD 2 M5
Caltex Rykon Syn HD 2 M5
Texaco Rykon Syn HD 2 M5

KEY:

EP = Extreme Pressure
HD = Heavy Duty
XD = Extra Duty
HM = High Speed Bearings/Electric
Syn = Synthetic
M5 = 5% Moly
M3 = 3% Moly
2 = NLGI Grade

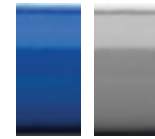

Cartridge Designs

Clear communication of **attributes** (Viscosity, NLGI, Thickener, Color, and Solids)

ISO VG	NLGI	Thickener / Espesante / Épaississant	Color
460	1	Simple Lithium	Red

Color will be noted in a ribbon at the top and bottom of the tube, Synthetic (Silver) Mineral Base (Blue)

QR code will be incorporated to lead to a landing page on Product Details (PDS, SDS, and POP)

Starplex® Grease

Lithium Complex
