

# Checkfluid

The first step in oil analysis... is getting the equipment right!

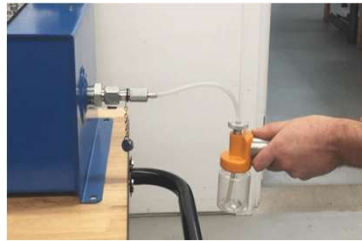

## Pressurized Sampling Valves

Engines, Hydraulics,  
Compressors, Transmissions,  
Coolant, Turbines

## Non-Pressurized Sampling Valves

Gearboxes, Reservoirs,  
Final Drives

## Sampling + Condition Based Monitoring Tools

- Drain Mounts
- Breather Mounts
- Drum Mounts
- Breathers
- Filter Gauges
- Level Gauges
- Bottom Sediment & Water Bowls

## Innovative Sampling Solutions

NEW Vacuum Charged Sampling Bottles

Make asset uptime an advantage and reduce downtime costs by up to 90%. The first step in oil analysis is taking good samples. Checkfluid sampling valves allow you to collect quality representative oil samples anytime, safely and cleanly. Checkfluid's innovative solutions for a variety of applications.

ISO 9001: 2015 certified.
